PROFESSIONAL SUMMARY

Experienced and results-driven Full Stack Developer with over 4 years of hands-on experience in building robust and scalable web applications using React and Node.js. Proficient in leveraging modern web technologies to deliver high-quality software solutions that meet client requirements and exceed expectations. Possess a strong foundation in software development principles, coupled with a keen eye for detail and a passion for crafting clean and maintainable code.

EDUCATION

Post Graduation Diploma - Web Development - *Humber College, Etobicoke, ON*   Jan 2024 - Present
Bachelor's Degree in Computer Engineering - *GTU Modasa, Gujarat India*   May 2015 - May 2019

WORK EXPERIENCE

Surekha Technologies, Ahmedabad, India
- Position: Software Developer
- Employment Dates: Jan 2019 - Aug 2022

Wembley Techosoft, Ahmedabad, India (Remote)
- Position: React Developer
- Employment Dates: Aug 2021 - Apr 2022

TECHNICAL SKILLS

- Web Technologies - HTML, CSS, JavaScript, React, React Hooks, Redux, React Native, SaaS, Ajax, Node.js, Firebase, Storybook, Babel, TypeScript, Markdown, Tailwind, Bootstrap, GraphQL, Responsive Design, Wireframing.
- Server-side Technologies - Node JS, Express, Firebase, Elasticsearch, Docker, Object-Oriented Programming, AWS Lambda, Amazon Cognito, XML, JSON, Amazon EC2, Microsoft Azure, Google Cloud Platform (GCP)
- Databases - MongoDB, SQL, MySQL, Firebase Realtime Database, Firebase Cloud Firestore, Amazon DynamoDB
- Programming Languages - Java, C#, Python Core
- Integrated Development Environments (IDEs) - Visual Studio Code, Eclipse, Visual Studio
- API Development and Testing - Postman, Insomnia, REST
- Version Control and DevOps - Git, GitHub, Azure
- Testing Frameworks - Mocha, Jest, JUnit, Selenium
- Content Management Systems (CMS) - WordPress, Shopify, Wix
- Design and Collaboration Tools - Canva, Figma, Miro, iMovie, OBS Studio, Asana, Azure, Jira
- Other Methodologies: Agile Methodology, SDLC, Scrum, Kanban, Waterfall

PROJECTS

Project: Paths - Social Media Application (2.8 Years)
Role: Full stack developer, Team Lead
Technologies: Node js, Firebase, React, React Native
Responsibilities
- Implemented XD designs into screens, developed full Redux integration from scratch, and created signup/login components
- Integrated social logins like Facebook, Apple, and Google in React application using Firebase authentication
- Developed reusable components with react hooks
- Integrated Redux for managing states in the React application
- Added Security in cloud functions so, non-authorized and non-authenticated users can access users' data, and also added security rules for the database, so that appropriate users can access authorised things.
- Created a Scheduler for updating access tokens of providers(Facebook/Instagram), when access tokens expire times are near in the week
- Integrated Firebase APIs to display data in the application
- Used Firebase real-time database at react side for real-time updates in an application without reloading
- Implemented APIs into Node.js Firebase for fetching posts from various social media, and managing account details, counts, and notifications.
- Used Firebase storage for managing attachments of posts

Project: JERA Power Plant APP (LOT/MOT) (9 Months)
Role: React JS Developer
Technologies: React js, UI Kit, Microsoft Authentication, Jera Design UI, JQuery, SCSS
Responsibilities
- Implement Microsoft Authentication, for sign in
- Used UI Kit with React Js for icons and styling
- Worked with Jera Design UI, with React
- Worked with Local storage and context API for managing power plant data
- Created Whole MOT/LOT app using functional components
- Used react-Navi library for navigation purposes
- Used also custom hooks for managing data, for power plant
- Used i18next library for managing Internationalization

EXTRA CO-CURRICULAR ACTIVITIES
- Participated in Global Game Jam 2024 at Humber College, and developed "Game Crafters" within a 48-hour timeframe. Utilized Unity for game creation, demonstrating problem-solving skills under pressure.

AWARD
- **Employee of the Year:** I've been honoured as Employee of the Year for leading in billing and garnering stellar client reviews. My dedication, professionalism, and exceptional client relations have boosted our organisation's success. Excelling in understanding and surpassing client expectations, I stand out as a top performer.
